CAPRI

STYLE AND FLAVOUR ON EVERYONE'S TABLE, EVERYDAY

Capri is a brand by Igino Mazzola S.p.A.. The control methods in production and packaging allow the right flavour to be created to accompany dishes with seasonal vegetables, as ingredients for sauces or to prepare sandwiches.

OUR QUALITY. YOUR CHOICE.

Fish is a precious foodstuff which, at its best, should be consumed with creativity: variety, in fact, ensures wellness. Igino Mazzola S.p.A. has specialised over four generations in the selection, preservation and sale of sardines, salmon, mackerel, tuna, cod, anchovies and clams.

We have packaged and distributed them for you to make it easy to choose and consume each of the sea specialities. We have developed protocol over time to guarantee not only the quality, flavour and nutritional content of our products, but also to ensure compliance with the production specifications of our suppliers and consumer safety. We believe in the eco-sustainability strategy of tuna fish in the oceans to contain catches and thereby promote re-population of the species.

WE GIVE EACH OF OUR CONSUMERS A CHOICE.

The delicacy of the Yellowfin quality for gourmet, the product fished from the hook for those seeking traditional methods as a further guarantee of sustainability, convenient solutions for a curious diet with the possibility of changing eating habits, for personal wellness and the sustainability of the environment: for us each choice should be respected.

We look to offer new opportunities to consumers with an increasing modern flare. For this reason, we continue to always and only invest in the sea, in the fishermen's trust, in the wealth of the ocean and its boundless qualities; to offer new occasions to consumers with an increasing modern flare.

CAPRI

ANYONE WHO GROWS UP BY THE SEA KNOWS HOW TO RESPECT IT AND APPRECIATE ITS MANY FLAVOURS.

The history of Igino Mazzola is based in Genoa, a city whose DNA is rooted in seafaring culture. A part of the catch we bring to your tables today has migrated from distant seas, crossing various oceans and many fishing cultures; however we still maintain that "sense" of sea on a strip of land that smiles onto the Mediterranean.

PASSING THE COMPANY FROM GENERATION TO GENERATION HAD CREATED A PACT THAT GUARANTEES CARE AND ATTENTION.

This is why each decision balances the actual needs of consumers, fishermen, workers and the eco-system to ensure our ability to respond is as broad and tangible as possible. We have done so up to now using common sense and trust, which have existed in our company for one hundred years.

WE HAVE OUR CONCEPT OF INNOVATION, PRESERVING NATURE, PROMOTING SIMPLICITY AND LISTENING TO THE NEEDS OF A CHANGING WORLD.

The delicacy of the Yellowfin quality for gourmet, the product fished from the hook for those seeking traditional methods as a further guarantee of sustainability, convenient solutions for a curious diet with the possibility of changing eating habits, for personal wellness and the sustainability of the environment: for us each choice should be respected.

We look to offer new opportunities to consumers with an increasing modern flare. For this reason, we continue to always and only invest in the sea, in the fishermen's trust, in the wealth of the ocean and its boundless qualities; to offer new occasions to consumers with an increasing modern flare.
